Integrated Tokamak Modelling**

Task Force Leader and Deputies: A. Bécoulet, P. Strand, M. Romanelli
Field Coordinator: K. Thomsen

Work Programme 2005-2006
Call For Participation

July 2005

At its tenth meeting on September 30th, 2004, the STAC recommended the EFDA-SC to endorse the ITM TF work plan, together with the 2005-2006 work programme. The EFDA-SC approved this recommendation on November 3rd, and invited the TF to Call For Participation into the corresponding Projects.

Among the 7 Projects endorsed by EFDA-SC, 3 were fully manned in 2004 (CPP, DCP and IMP#1) and 4 will be manned during 2005 (IMP#2, 3, 4 & 5). The present Call For Interest is issued in order for Associations to propose the manpower to the EU-ITM-TF Project named **IMP#3, in charge of “Transport” issues, and lead by Dr D. Coster.**

ITM-TF will assemble Associations' answers and set-up the project team. The Project will be active by end-August 2005 for two years.

Answers to the present Calls For Participation should be sent by August 31st, 2005 by electronic mail:
